Additive Item #2	Replacement of the hangar bay lighting	
Additive Item #3	Replacement of windows as designated	
Additive Item #4	Installation of solar tubes	

Comments:

ADDITIVE ITEMS EVALUATION

(a) The low offeror and the items to be awarded shall be determined as follows—

(1) Prior to the opening of proposals the Government will determine the amount of funds available for the project.

(2) The low offeror shall be the Offeror that—

(i) Is otherwise eligible for award; and

(ii) Offers the lowest aggregate amount for the base item plus (in the order stated in the list of priorities in the schedule) those additive items that provide the most features within the funds determined available.

(3) The Contracting Officer shall evaluate all proposals on the basis of the same.

(i) If adding another item from the schedule list of priorities would make the award exceed the available funds for all offerors, the Contracting Officer will skip that item and go to the next item from the schedule of priorities; and

(ii) Add that next item if an award may be made that includes that item and is within the available funds.

(b) The Contracting Officer will use the list of priorities in the schedule only to determine the low offeror. After determining the low offeror, an award may be made on any combination of items if—

(1) It is in the best interest of the Government;

(2) Funds are available at the time of award; and

(3) The low offeror's price for the combination to be awarded is less than the price offered by any other responsive, responsible offeror.

(c) *Example.* The amount available is \$100,000. Offeror A's base and four additives (in the order stated in the list of priorities in the Schedule) are \$85,000, \$10,000, \$8,000, \$6,000, and \$4,000. Offeror B's base and four additives are \$80,000, \$16,000, \$9,000, \$7,000, and \$4,000. Offeror A is the low offeror. The aggregate amount of offeror A's bid for purposes of award would be \$99,000, which includes a base plus the first and fourth additives. The second and third additives were skipped because each of them would cause the aggregate to exceed \$100,000.
